

FEVER IS GONE
FROM PATIENT

Pope's General Condition Is Considered Satisfactory To-day

HIS TEMPERATURE 97, SAYS A BULLETIN

The Pope Relates Dream in Which He Saw His Sister

Rome, April 15.—The pope's condition appeared practically unchanged to-day. The papal physician issued a bulletin which said the holy father was again without fever and a temperature of 97. His general condition is satisfactory.

After his afternoon sleep yesterday it was observed that the pontiff looked very bright and happy. Although he was advised not to talk he insisted on explaining how he had just awakened from a most wonderful dream.

He seemed, he said, to have returned to his beloved Venice; that he was in his patriarchal gondola on the Grand canal. Everything was blazing with sunlight, when suddenly above St. Mark's, the sky opened and he saw a vision of his dead sister, Rost, who descending towards him, took his hand, saying:

"The moment has not yet come for you to join me. Your work is not finished."

Prof. Marchisiani, the pope's physician, said to-day: "The pope's illness is now taking a normal course. The patient is much better during the hours of the forenoon, after a night's rest. He had a slight setback late yesterday, when his temperature rose slightly. At noon the pope was assisted from his bed to an arm chair and was able to partake of chicken jelly, which seemed to refresh him greatly."

ANOTHER BOLD KILL-
ING STIRS UP CUBA

Jose Fernandez, Prominent Liberal Politician, Murdered By Special Policeman at Cienfuegos

Havana, April 15.—Jose Fernandez, a prominent liberal politician and known throughout Cuba as Chichi Fernandez, was shot and killed yesterday afternoon in the principal cafe at Cienfuegos. The shooting marks the first stage of the vendetta provoked by the assassination Saturday of Ceferino A. Mendez, who recently was elected conservative mayor of Cienfuegos. Mendez was waylaid in the street of Cienfuegos and riddled with bullets.

The assassin of Fernandez was a special policeman, Eustasio Ordonez, who was attached to the office of the late mayor. Finding Fernandez sitting in the cafe with a party of friends, Ordonez without warning fired all the chambers of his revolver at him. Four of the bullets took effect. Ordonez was arrested but refused to make a statement as to his reasons for shooting Fernandez.

The city of Cienfuegos was thrown into a state of intense excitement as a result of the tragedy. All the stores were closed and strong forces of police and rurales last night were patrolling the streets. The general belief here is that more political assassinations are imminent.

When the news of the killing of Fernandez reached Havana, the secretary of the interior ordered the commanders of the detachments of troops and rural guardsmen in the province of Santa Clara to be prepared to proceed to Cienfuegos at a moment's notice.

Senor Ferraz, speaker of the House of Representatives, who was presiding over a liberal caucus when word was received of the assassination of Fernandez, immediately ordered an adjournment, declaring that there now was no guarantee for the lives of liberals and that their only alternative was to retire from politics or begin a revolution.

The assassin of Mayor Mendez, a policeman named Campos, was arrested Sunday night. He declared he killed the mayor because he had refused to authorize the payment of his back salary. This excuse, however, is regarded as a mere subterfuge. Campos, it is charged by the authorities, was hired to commit the murder by parties of Jose Fernandez, who was defeated in the race for the mayoralty of Cienfuegos.

The secretary of the interior in a statement issued last night said the government was fully determined to preserve order in Cienfuegos no matter what the cost.

RECEIVER IS NAMED.

For Concern of Fred E. Ahern, Who Is Mysteriously Absent.

Boston, April 15.—The unexplained disappearance of Fred E. Ahern of Cohasset at Dover, N. H., April 6, plays a part in a bill in equity filed in the superior court yesterday by the Boylston national bank against the Lipeon Brothers company, a coal and wood firm in Cohasset, for the appointment of a receiver.

Ahern is president of the company and owns nearly all the stock.

The bill alleges that on Dec. 23 he executed a mortgage for \$2,500 on the property and the mortgage is about to foreclose. It is alleged he had no authority from the corporation to execute the mortgage.

It is also claimed there is not sufficient grain or feed for the eight horses owned by the company and not enough money on hand to buy a supply so a receiver was asked for to protect the horses as property of the corporation.

Judge Pierce appointed William L. Barnard receiver.

THREE CANDIDATES
FOR WEEKS' PLACE

Thirtieth Congressional District in Massachusetts Voting to-day for Representative in Congress.

Boston, April 15.—Voters in the thirtieth congressional district went to the polls to-day to fill the vacancy caused by the resignation of John W. Weeks, when he was elected as United States senator. The three candidates, Alfred L. Cutting, Republican, John J. Mitchell, Democrat, and Norman H. White, Progressive, all expressed themselves confident of the outcome. Political observers, however, looked for a close fight.

The district includes Brighton ward in Boston, the cities of Newton, Marlboro and Waltham and many Middlesex and Norfolk county towns. This is the first election since President Wilson's election last fall.

PRISONER KILLED HIMSELF.

E. C. Brigham Cut His Throat in Keene, N. H., Jail.

Keene, N. H., April 15.—While awaiting trial for passing a worthless check last week, E. C. Brigham, 50 years old, of Boston, committed suicide in jail here yesterday by cutting his throat with a razor he had concealed in his stocking. He was arrested at Claremont Saturday.

Ordway was in Keene Saturday, and representing himself as E. C. Brigham, it is alleged, a traveling salesman for a packing company of Boston, sold E. E. Bissell a bill of goods and asked Bissell to cash a check for \$17.50, which he did. The check was on the National City Bank of Lynn and was signed by Austin Bennett under date of April 11.

Later Bissell was told he was the victim of a fraud. City Marshal Philbrick located Ordway in Claremont, registered under the name of Seth Osgood. While in that place he attempted to cash a check for \$20, it is claimed. Marshal Philbrick and Mr. Bissell went to Claremont Sunday and returned yesterday morning with Ordway.

Marshal Philbrick telephoned to the bank at Lynn and learned that Austin Bennett, signer of the check Ordway is alleged to have passed here, did not have any account at the bank, and the packing company claimed he was not working for them.

Shortly before 4 o'clock, Marshal Philbrick saw Ordway, who asked the time the judge would arrive for the hearing and was told it would be within fifteen minutes. Then the marshal closed the cell room door, and when he went to get Ordway for the trial found him lying on the floor with his throat cut. He was unconscious and was taken to the hospital, where he died within a short time.

Ordway answered the description of a man wanted in Gardner, Mass., and in Bellows Falls, Vt., on charges of passing worthless checks.

TIME IS EXTENDED
FOR FILING CLAIMS

For Sixty Claimants for Damage in the Titanic Disaster, No Other Claims Can Be Filed.

New York, April 15.—The time limit for the filing of damage claims against the Ocean Steam Navigation company, limited, for losses incurred by the sinking of the Titanic, was extended today by United States Judge Holt in the case of two attorneys, representing nearly sixty claimants.

One acting for seven residents of Switzerland was given thirty days. The other, representing claims of over fifty immigrants, was given one week. A total of \$11,774,004 has been claimed in 185 cases. No other claims can now be filed.

KILLED BY PLUNGE.

Joseph Jobin, Aged 73, Went Down Four Stories.

Worcester, Mass., April 15.—Joseph Jobin, aged 73, was instantly killed yesterday afternoon in the store of C. T. Sherer company on Front street, by falling four stories to the bottom of an elevator well. Mr. Jobin was employed as a furniture dealer and was alone in the parking room when the accident happened, so nobody knows how he came to fall into the well.

He evidently plunged head first to the bottom of the well, as his skull was crushed. The first of the attaches of the store knew of the accident when they were notified by two boys that a dead man was in the well.

Between Turkey and the Balkan Allies, According to Semi-Official Dispatch To-day.

Paris, April 15.—A three days' armistice has been arranged between Turkey and the Balkan allies, according to a semi-official dispatch from Constantinople.

KNEW THE TRICKSTERS.

Martin Was Acquainted With Them in London.

London, April 15.—During his sojourn in England Joseph Wilberforce Martin, the missing Memphis cotton broker, became acquainted with members of a gang of international sharpers and confidence tricksters, including a handsome woman, according to the Daily News. But although they are past masters in the art of kidnapping and terrorizing, it is not believed that they would go so far as murder.

All clues so far suggesting that Martin had been seen at different places since the date of his disappearance have proved on investigation to be worthless.

WIRELESS RELIEF STATION.

Has Been Established at Vicksburg, Miss., and Other Places.

Vicksburg, Miss., April 15.—A wireless system for flood relief work was opened here to-day. Wireless stations are located in remote sections, which are liable to be cut off from communication by high water.

SURPRISES
GOVERNMENT

The Size of the Belgium Strike for Manhood Suffrage

ALTHOUGH 100,000 LESS THAN THREATENED

Premier Admits the Movement May Prove Compelling

Brussels, Belgium, April 15.—Over one-third of the workmen in Belgium have struck and joined the Socialists, as a protest against the system of plural voting, which effectually prevents them from obtaining a majority at the polls and which has permitted the clerical party to remain in power for the past twenty years.

Virtually complete figures gathered from all the provinces except Antwerp and West Flanders showed a total of 256,000 strikers out this morning, and estimates from Antwerp and West Flanders, where the Socialists are weakest, indicate another 14,000 there. The Socialists, however, assert the total reaches 350,000, and the clericals and government place the figure at only 120,000.

Despite the fact that so many of the laboring class are idle, there has been a notable lack of violence. The strikers are evidently determined to respect the call of their leaders that the strike be one of folded arms and not of raised fists.

Brussels, April 15.—Although the number of men who quit work yesterday to force the government to grant them suffrage is 100,000 short of the Socialist prediction and although the clerical press is beginning to call the movement "a pitiable fiasco," the strike has shown greater strength than was expected by imperial observers.

The strike thus far has been marked by neither disturbance nor any special inconvenience to the general public. The gas, water, electric and street cleaning services and the street cars and railroads are in operation as usual, but the city is full of children of the provincial strikers who are being cared for by the families of the liberals.

The only act of "sabotage" occurred in the suburb where three big machines in a leather factory were damaged.

Brussels is not an industrial center. There are about 30,000 workmen here of whom less than 20,000 are out.

Admits Strike May Be Dangerous.

The premier, M. De Broqueville, in an interview last night, admitted that if the strike dragged on it might prove dangerous by leading to disorders, but he said that at the present time there was no reason to fear disturbances.

The premier added that while the electoral laws were not such that they could not be changed for the better, the government could not allow itself to be coerced and must stand firm in the face of menaces. To agree to the socialist demands would be to place an eternal weapon in the hands of the Socialist party which they would brandish at the heads of all future governments.

He pointed out that to delegate a commission to consider a change in the electoral system would practically involve revision of the constitution, which would open up great difficulties. In conclusion, he denied all rumors of cabinet dissension on this question and declared: "If the strike is revolutionary we will suppress the riots; if calm, it will not and cannot have any practical result."

M. De Broqueville further intimated that if the 1914 elections gave his party freedom in this matter, he would be ready to consider a change in the electoral system.

La Louviere, Belgium, April 15.—The miners' strike here was general yesterday, not a man beyond those necessary to keep the machinery in order having gone into the mines. All the factories closed their doors except a pottery which was running at full force. The street cars were operating as usual during the forenoon as the strike of the motormen and conductors was timed to begin at seven o'clock last evening. Some attempts have been made to cut telegraph wires in the vicinity.

Charleroi, Belgium, April 15.—The suspension of work at the coal mines in this district was complete except that sufficient men remained at their posts to keep the machinery in good order and the pumps working. The metal workers of the vicinity have only partially quit their employment but it is understood that the remainder of the men in this branch will lay down their tools.

Antwerp, April 15.—The strike has not effected this port in any way. Work on the docks and everywhere else in the city continued as usual yesterday.

VETERAN KILLS HIMSELF.

William H. Wood Shot Himself Through the Mouth.

Worcester, Mass., April 15.—William H. Wood, aged 65, a veteran of the Civil war and a member of post 10, G. A. R., committed suicide yesterday in his home, 6 Shirley street, by shooting himself in the mouth. No reason is known for the act unless poor health, from which he had been suffering. His wife heard a shot from the bathroom and opened the door to find Wood lying dead on the floor with a revolver in his hand. The bullet entered the brain and caused instant death.

Mr. Wood came to Worcester from Upton five years ago and was employed as a machinist in the W. H. Burns Co. factory at 99 Franklin street. He is survived by his wife and three children. The funeral will be Wednesday afternoon.

TO PROVIDE REST ROOM.

Burlington Aldermen Voted to Appropriate Money for Purpose.

Burlington, April 15.—The board of aldermen voted last night to appropriate \$250 to fit up a rest room for women in the Memorial building. The board of finance reported it is proposed to locate the project and recommended that a sum of \$250 be appropriated at once. The board of finance also recommended that a matron be employed to look after the room.

A resolution embodying the recommendations of the board of finance was then introduced. This, however, met with some opposition. At least some of the board members were opposed to "railroading" the resolution through without taking some time to consider it. Alderman Boucher made a motion that the resolution be made to lie on the table for further consideration. This was followed by Alderman Crane.

Alderman Dion was in favor of allowing the resolution to lie over until some of the members had had time to inspect the room which is proposed to locate in the rest room. He said he was in favor of the project as a whole but was opposed to the "railroad tactics" which had been employed ever since the new board organized.

Alderman Hall declared that Burlington had forged 46 years behind the times ever since he could remember and that it was time that the city had a rest room when one could be afforded in Montpelier and other smaller cities. Alderman Buell was in favor of the project. He said he had inspected the rooms and that they were admirably suited to the purpose. This was followed by the vote as above stated.

WARRANTS ISSUED

FOR MELLEEN TO-DAY

Also Another for McHenry, Vice President of the New Haven System, Charging Manslaughter.

Bridgeport, Conn., April 15.—Bench warrants for President Charles S. Mellen and Vice President E. H. McHenry of the New Haven railroad were issued this morning by Judge Gardner Green in the criminal session of the superior court of Fairfield county. They charge the two officials with gross negligence and manslaughter in connection with the Westport wreck last October, in which several lives were lost.

The warrants were issued on request of State's Attorney Stiles Judson and they follow the lines of those secured some time ago for four other officials of the company. President Mellen was in court today and accepted service.

SMILES WHEN SENTENCED.

Francis L. Lemoyne Given Not Less Than Five Years.

Boston, April 15.—Smilingly, Francis L. Lemoyne, alias Fred Marks of Red Hook, N. Y., who moved freely in Black Bay society during January and February, was sentenced to five years in the state prison after a plea of guilty to a charge of larceny of the bonds and talked freely of his plans of escaping from America. He was arrested at Jacksonville, after a chase by the police from city to city on the way South.

Up to the day of his sudden departure from Boston, after the theft of the bonds, Lemoyne had been studying music, voice and piano and languages at the Conservatory of Music, and had been a familiar figure at society entertainments. He had apartments at 48 Beacon street during his three months' stay in Boston, hired a limousine by the month and entertained lavishly.

Coming to Boston in December, 1912, Lemoyne rented his apartment, and after a few days' stay began doing business with the Paine, Webber company through the Copley-Place office, of which Rev. John Ellis was then manager. After several weeks, Lemoyne, as he was known in all his Boston transactions, told the Paine, Webber officials that he had \$60,000 on deposit in New York. He offered to shift the account and the local bankers agreed readily. He drew a check for \$60,000 and deposited it with Paine, Webber & company. A little later he drew \$14,432 from the bank against his \$60,000 check and bought the fifteen bonds with this money.

Half an hour after the purchase of the bonds Lemoyne deposited them as collateral with the Old Colony Trust company for a loan of \$8,900. He then left for New Orleans. The fact that the \$60,000 check was spurious was uncovered quickly and Inspector Lyons was put on the trail. At New Orleans Lemoyne was only a few hours ahead and at Jacksonville just as Lemoyne had reached his last stage of his United States journey he was overtaken.

DESTROYED
FINE MANSION

To Make Sure, Suffragettes Placed Explosives Along with Fire

PROPERTY BELONGED TO UNIONIST MEMBER

Large Quantity of Suffrage Literature Was Left About

Hastings, England, April 15.—Militant suffragettes to-day destroyed the handsome seaside mansion at Saint Leonards-on-the-sea belonging to Arthur Philip Du Cret, a Unionist member of Parliament from Hastings. The women not only set fire to the house but they placed explosives in many of the rooms. The residence recently was vacated. A large quantity of suffrage literature was found in the vicinity.

At Bath sympathizers with the suffragettes last night cut the telegraph and telephone wires at the entrance to the box tunnel on the Great Western railway near here. Great inconvenience was caused to train service.

BOY FUGITIVE DROWNED.

Perley Reever, 14, Fleeting from the Industrial School.

Manchester, N. H., April 15.—Perley Reever, 14, an inmate of the industrial school, was drowned yesterday while attempting to escape from the institution by swimming the Merrimack river. Reever and other boys were at work grading about a new building when, without warning, three boys made a dash toward the river. Only Reever, however, kept on in that direction, as one turned south and the other north. Reever ran directly across the railroad tracks, and when the bank of the river was reached plunged in and started for the other side.

When he had reached a point about 30 feet from the east bank, he evidently was seized with cramps. He threw up his hands, gave a cry and sank. He did not rise again.

When Reever started to run, a "trustee," Alcide Babineau, started after him, and kept in close pursuit until the river was reached. There Babineau also plunged into the ice-cold water, but before he could overtake the runaway the latter sank from view.

The police were immediately notified, and Frank P. Wiggin recovered the body.

Young Reever was born in Lakeport and was sent to the school from that place in August, 1910. One of the other boys who attempted to escape, William Hackett, of West Stewartstown, was captured. The third, Henry Sampson of Concord, made good his escape.

HORSE STEPPED ON TOES.

Therefore Injured Person Got Verdict from Mounted Policeman.

Worcester, Mass., April 15.—Because a horse which Patrolman John B. Legasse rode in the Columbus day parade in 1911 stepped on the toes of Thomas L. Smith, Mr. Legasse must pay Mr. Smith \$107 in accordance with a verdict returned by a jury in superior court yesterday before Judge Raymond. Mr. Legasse is a resident of a pension since the accident, which Mr. Smith claimed was due to the negligence of the officer in controlling his horse. The case went to the jury last Friday, and a sealed verdict was returned yesterday.

He had been employed in the lumber camp of Napoleon Guilmette at Places Crossing and, it is alleged, forged the latter's name to a check for \$300 in favor of himself. The check was cashed at the Rochester National bank and drawn on the Merchants' Trust company of Lawrence.

Judge McGill ordered the respondent to furnish \$2,000 bonds for his appearance at the higher court, in default of which he was committed to Dover jail.

TROUT SEASON OPEN
WITH FISH STOCKS

No Great Success Attended First Efforts to Lure Willing Fish From Vermont Streams.

One hour before sunrise this morning witnessed the curtain lifting on the open season for catching brook trout, brown trout or Lock Leven trout. The same hour of April 15 saw hundreds of fishermen all over Vermont start out in quest of the speckled species that lurk in the little rapids of every brook.

In Barre the call of the brook was answered by an unusually large delegation of the hook and line fraternity, and throughout the day trout brooks in nearby towns were traveled from mouth to headwaters. Up to an early hour this afternoon no large catches had been reported for the reason that most of the fishermen probably preferred to stay on the brooks until the five pound limit was reached.

With a warm sun today and a record of spring days fairly favorable for making good fishing, the advance from this vicinity this morning was larger than in former years. Nearly every man who ever fished with a bent hook and a willow pole wanted to go and not a few arranged their affairs so they could get on. Men who are more familiar with trout brooks in Vermont than with Isaac Newton's "Complete Angler" are sanguine of an excellent season for the sport. They point out the fact that a mild winter is altogether in favor of the brooks as well as the trout and with every indication of an early and permanent return of warm weather it looks to them as though a good many trout would perish during the next few weeks.

In towns about Barre, reports of a promising nature have been coming in for several days. One man whose business calls him to the countryside each week adds his say to the general opinion by declaring that brooks in many places were ready two weeks ago with the trout waiting to be caught. He does not add, however, that any had been caught.

PUT UNDER BONDS.

Middlebury College Student Alleged Leader of Town Rumpus.

Middlebury, April 15.—As a result of a disturbance at the moving picture show in the Grange hall Saturday night, which is claimed to have been caused by a body of college students, M. F. Shea, a student, was arrested by Chief of Police Frank Warren, assisted by Policemen Peter Dwyer and Wissel and Deputy Sheriff Sanford. He was later allowed his liberty until Monday morning, when he appeared before Justice A. W. Dickens on a charge of breach of the peace. Allan R. Sturtevant conducted the prosecution and James B. Donovan appeared for the defendant. Mr. Shea waived examination and was put under \$300 bonds to appear at the June term of Addison county court. Bail was procured. There is talk around town that warrants will be issued for several other members of the party.

SEEKS TO FIND OUT

WHO IS THE MAYOR

Herbert W. Ballard Starts Quo Warranto Proceedings in St. Albans to Oust Mayor Selden C. Greene.

St. Albans, April 15.—Herbert W. Ballard has begun quo warranto proceedings for the purpose of determining who was legally elected mayor of St. Albans at the recent March meeting. At that time Selden C. Greene, the union candidate of the Republican and Democratic parties, was declared elected over Ballard, who was the Progressive candidate, by two votes.

Papers in the quo warranto proceedings have been brought by State's Attorney Gaylord F. Ladd by virtue of his office and also by his relation with Mr. Ballard. The natural step will be to ask the supreme court to provide for a recount; and if the court decides favorably to the petitioner, the ballots will be recounted. The ballots are now sealed and stored in the city clerk's office.

At the time of the election, Mr. Ballard asked for a recount of the votes, but Mayor Greene, who was presiding over the meeting, refused to grant the request and declared himself elected mayor of the city.

Price immediately notified Officer St. Amour, stating that the man went toward Burlington on the tracks. Seven was apprehended near the feed sheds as answering to the description given the officer. Seven, who appeared somewhat intoxicated, was taken into custody and when searched he had a loaded revolver and five cartridges in his pockets.
